

HIGH SPEED FET-INPUT OP AMPS

AD513, AD516

GENERAL DESCRIPTION

The AD513 and AD516 high speed FET op amps combine high DC accuracy with excellent dynamic response by utilizing the flexibility of external compensation. With simple lag compensation, the AD513 and AD516 achieve slew rate of 20V/ μ sec, and gain bandwidth of 1MHz at unity gain and 10MHz for gains greater than 100. With feedforward compensation a slew rate of 50V/ μ sec and gain bandwidth of 30MHz can be achieved. High accuracy DC specifications include max bias current as low as 20pA, a minimum gain of 50,000, and CMRR of 80dB.

The AD513 is suggested for all general purpose FET input amplifier requirements where low cost and frequency response flexibility are of prime importance. The AD516, with specifications otherwise similar to the AD513, offers significant improvement in offset voltage by supplementing the AD513 configuration with internal laser trimming of thin film resistors to provide typical offset voltages below 1mV.

The devices are also fully short circuit protected and can be externally offset voltage nulled. All the circuits are supplied in the TO-99 package in the same pin configuration as the AD101A and AD108/108A. The AD513J/AD516J and AD513K/AD516K are specified for 0 to +70°C temperature range operation; the AD513S/AD516S for operation from -55°C to +125°C.

Operating, Rated Performance	0 to +70°C	*	-55°C to +125°C
Storage	-65°C to +150°C	*	*
Price			
(1-24)	\$11.00/\$13.00	\$13.50/\$15.50	\$21.00/\$26.50
(25-99)	\$9.00/\$11.00	\$10.80/\$12.80	\$16.80/\$21.80
(100-999)	\$7.50/\$9.50	\$9.00/\$11.00	\$14.00/\$17.60

NOTES:

- Open Loop Gain is specified with V_{os} both nulled and unnullled. *Specifications same as for AD513J.
- A conservative design would not exceed 500pF of load capacitance.
- Input Offset Voltage specifications are guaranteed after 5 minutes of operation at T_A = +25°C.
- Bias Current specifications are guaranteed after 5 minutes of operation at T_A = +25°C. For higher temperatures, the current doubles every +10°C.
