Version: 2.0

Date of Issue: 05 May 2017 Date of First Issue: 16 July 2012

www.vishaypg.com

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

SECTION 1: IDENTIFICATION

Product identifier used on the label M-Prep Neutraliser 5A

Other means of identification Not applicable.

Recommended use of the chemical and restrictions

on use

Recommended use PC14 Metal surface treatment products, including galvanic and electroplating

products

Restrictions on use Anything other than the above.

Details of the supplier of the safety data sheet

Supplier VISHAY MEASUREMENTS GROUP, INC.

Address of Supplier Post Office Box 27777

Raleigh, NC 27611

USA

 Telephone
 +1 919-365-3800

 Fax
 +1 919-365-3945

 E-Mail (competent person)
 mm.us@vishaypg.com

Emergency telephone number 1-800-424-9300 CHEMTREC (24 hours)

SECTION 2: HAZARD(S) IDENTIFICATION

Classification of the substance or mixture in

accordance with paragraph (d) of 29 CFR 1910.1200

Physical hazards Not classified. Health hazards Not classified. Environmental hazards Not classified.

Hazard Symbol None assigned.

Signal Word(s) None assigned.

Hazard Statement(s)

None assigned.

Precautionary Statement(s) None assigned.

Other hazards None known.

Percent of the mixture consists of ingredient(s) of

unknown acute toxicity:

0%

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Substances Not applicable

Mixtures

Chemical identity of the substance	%W/W	CAS No.	EC No.	Hazard classification
Sodium tetraborate pentahydrate	< 0.01	12179-04-3	215-540-4	Eye Irritation, Category 2 Reproductive toxicity, Category 1B (SCL: ≥ 4.5%)

14070 Page: 1 of 6

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

SECTION 4: FIRST AID MEASURES

Description of first aid measures

Self-protection of the first aider

Inhalation

Skin Contact

Eye Contact

Ingestion

Most important symptoms and effects, both acute and delayed

Indication of any immediate medical attention and special treatment needed

Notes to a physician:

Use personal protective equipment as required. Wear appropriate personal protective equipment, avoid direct contact. Ensure adequate ventilation. Avoid breathing vapours. Avoid contact with skin and eyes. Contaminated clothing should be laundered before reuse.

IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

IF ON SKIN: Wash skin with soap and water. If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Flush eyes with water for at least 15 minutes while holding eyelids open. If eye irritation persists, get medical advice/attention.

IF SWALLOWED: Wash out mouth with water and give 200-300 ml (half a pint) of water to drink. Do not induce vomiting. If symptoms develop, obtain medical attention.

None anticipated.

Unlikely to be required but if necessary treat symptomatically.

Not applicable.

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing media

Suitable Extinguishing Media Unsuitable extinguishing Media

Special hazards arising from the substance or mixture

Special protective equipment and precautions for fire fighters

Extinguish with carbon dioxide, dry chemical, foam or waterspray. \\

Do not use water jet.

Not flammable. May decompose in a fire giving off toxic fumes. When heated, material will emit anhydrous ammonia vapor which necessitates respiratory and eye protection for firefighting.

Fire fighters should wear complete protective clothing including self-contained breathing apparatus. Do not breathe fumes. Keep containers cool by spraying with water if exposed to fire. Avoid run off to waterways and sewers.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Methods and material for containment and cleaning

Ensure adequate ventilation. Stop leak if safe to do so. Use personal protective equipment as required. See Section: 8. Avoid breathing vapours. Avoid contact with skin and eyes.

Absorb spillage to prevent material damage. Cover spills with inert absorbent material. Neutralize with dilute acid. Ventilate the area and wash spill site after material pick-up is complete.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling

Ensure operatives are trained to minimise exposures. Ensure adequate ventilation. Avoid breathing vapours. In case of inadequate ventilation wear respiratory protection. Wear protective gloves/protective clothing/eye protection/face protection. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product.

Keep only in original container. Keep container tightly closed and in a well-

Conditions for safe storage, including any incompatibilities

Storage temperature

<27°C

ventilated place.

www.vishaypg.com

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

Incompatible materials

Acids, Peroxides, metallic copper, Tin, Zinc and their alloys, halogenated compounds.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits

No OSHA permissible exposure limit (PEL) assigned.

SUBSTANCE	CAS No.	LTEL (8 hr TWA ppm)	LTEL (8 hr TWA mg/m³)	STEL (ppm)	STEL (mg/m³)	Note
Sodium Tetraborate Pentahydrate	12179-04-3		1			NIOSH
						ACGIH, A4
		-	2	i	2	Inhalable particulate matter

Note: NIOSH RELs / ACGIH TLVs

A4 - Not Classifiable as a Human Carcinogen: Agents which cause concern that they could be carcinogenic for humans but which cannot be assessed conclusively because of the lack of data. In vitro or animal studies do not provide indications of carcinogenicity which are sufficient to classify the agent into one of the other categories.

Biological Exposure Indices

Not established

Appropriate engineering controls

Ensure operatives are trained to minimise exposures. Ensure adequate ventilation. Atmospheric levels should be controlled in compliance with the occupational exposure limit.

Individual protection measures, such as personal protective equipment (PPE)

General hygiene measures for the handling of chemicals are applicable. Keep good industrial hygiene. Avoid contact with skin and eyes. Avoid breathing vapours. Wash hands before breaks and after work. Keep work clothes separately. Do not eat, drink or smoke at the work place. IF exposed: Flush with fresh water if contact with skin or eyes.

Eye/face protection

Wear protective eye glasses for protection against liquid splashes. Wear eye protection with side protection.

Skin protection

Hand protection:

Wear impervious gloves. Protective index 6, corresponding > 480 minutes of permeation time. Gloves should be changed regularly to avoid permeation problems. Breakthrough time of the glove material: refer to the information provided by the gloves' producer. Neoprene or rubber gloves are recommended.

Body protection:

Wear suitable coveralls to prevent exposure to the skin.

Respiratory protection

In case of inadequate ventilation wear respiratory protection. Open system(s): Wear suitable respiratory protective equipment. A suitable mask with filter type A may be appropriate.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance Odor Odor Threshold Colourless liquid. Mild ammonia odor. Not available.

14070 Page: 3 of 6

Version: 2.0

Date of Issue: 05 May 2017 Date of First Issue: 16 July 2012

www.vishaypq.com

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

pH Not established.

Melting Point/Freezing Point 0°C
Initial boiling point and boiling range 100°C

Flash Point Not applicable. Evaporation rate (Butyl acetate = 1) <1 (BuAc = 1)

Flammability (solid, gas)

Not applicable - Liquid
Upper/lower flammability or explosive limits

Not applicable.

Vapour pressure 760 mmHg @ 100°C

Vapour density 1 (Air = 1)
Relative density 1 (Water = 1)
Solubility(ies) Soluble in water.
Partition coefficient: n-octanol/water Not established.
Auto-ignition temperature Not established.
Decomposition Temperature Not established.
Viscosity Not established.

Other information VOC: 0%

SECTION 10: STABILITY AND REACTIVITY

ReactivityStable under normal conditions.Chemical stabilityStable under normal conditions.

Possibility of hazardous reactions Hazardous polymerisation will not occur.

Conditions to avoid

Adding Sodium Hydroxide to this material and/or heating will volatize Ammonia.

Acids, Peroxides, metallic copper, Tin, Zinc and their alloys, halogenated compounds.

Hazardous decomposition product(s)

May decompose in a fire giving off toxic fumes. When heated, material will emit

anhydrous ammonia vapor which necessitates respiratory and eye protection for

firefighting.

SECTION 11: TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity - Ingestion Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 2000 mg/kg

bw/day.

Acute toxicity - Inhalation Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 >20.0 mg/l. Based upon the available data, the classification criteria are not met.

Acute toxicity - Skin Contact

Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 2000 mg/kg

bw/day.

Skin corrosion/irritationBased upon the available data, the classification criteria are not met.

Serious eye damage/irritationBased upon the available data, the classification criteria are not met.

Sodium Tetraborate Pentahydrate: Test Result: Irritating to eyes. (EPA OPP 81-4)

Respiratory or skin sensitizationBased upon the available data, the classification criteria are not met.Germ cell mutagenicityBased upon the available data, the classification criteria are not met.CarcinogenicityBased upon the available data, the classification criteria are not met.Reproductive toxicityBased upon the available data, the classification criteria are not met.

Sodium Tetraborate Pentahydrate: Rats exposed to the high dose of 518 mg/kg bw of borax (corresponding to a

level of 58.5 mg B/kg bw) were sterile. (Weir RJ & Fisher RS, 1972)

STOT - single exposure

Based upon the available data, the classification criteria are not met.

STOT - repeated exposure

Based upon the available data, the classification criteria are not met.

Aspiration hazard

Based upon the available data, the classification criteria are not met.

Information on likely routes of exposure

Inhalation Possible – accidental. Ingestion Unlikely – accidental.

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

Skin Contact Possible – accidental. Eye Contact Possible – accidental.

Early onset symptoms related to exposure None anticipated

Delayed health effects from exposure None anticipated

Other information

NTP Report on Carcinogens Not listed.

IARC Monographs Not listed.

OSHA Designated Carcinogen Not listed.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity Based upon the available data, the classification criteria are not met.

Estimated Mixture LC50 >100 mg/l (Fish)

Persistence and degradability Readily biodegradable.

Bioaccumulative potential The product has no potential for bioaccumulation.

Mobility in soil The product is predicted to have high mobility in soil. Soluble in water.

Other adverse effects None known.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods Neutralize absorbent material with dilute acid.

Additional Information Dispose of contents in accordance with local, state or national legislation.

SECTION 14: TRANSPORT INFORMATION

Not classified according to the United Nations 'Recommendations on the Transport of Dangerous Goods'.

ADR/RID **IMDG** IATA **UN** number Not classified Not classified Not classified UN proper shipping name Not classified Not classified Not classified Transport hazard class(es) Not classified Not classified Not classified Packing group Not classified Not classified Not classified Not classified as a Marine **Environmental hazards** Not classified Not classified

Pollutant.

Transport in bulk according to Annex Not applicable.
