- 6.3 Methods and material for containment and cleaning
  - Ensure suitable personal protection during removal of spillages. Adsorb up spillages onto sand, earth or any suitable adsorbent material. Transfer to a container for disposal. Ventilate the area and wash spill site after material pickup is complete. Dispose of this material and its container as hazardous waste
- 6.4 Reference to other sections
- 7. **SECTION 7: HANDLING AND STORAGE** 7.1 Precautions for safe handling Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid contact with skin, eyes or clothing. Do not breathe vapour. Ensure adequate ventilation. Use personal protective equipment as required. See Section: 8. Do not eat, drink or smoke when using this product. Wash hands before breaks and after work. 7.2 Conditions for safe storage, including any Store in a well-ventilated place. Keep container tightly closed. Keep away from incompatibilities heat, sources of ignition and direct sunlight. Protect from moisture. Storage temperature Ambient.

(2008/98/EEC).

See Section: 8, 13

watercourses. Spillages or uncontrolled discharges into watercourses must be alerted to the Environment Agency or other appropriate regulatory body.

### Revision: 1.1 Date: 25.08.2015

Note: WEL: Workplace Exposure Limit (UK HSE EH40).

- 1) Inhalable dust
- 2) Respirable dust
- 3) Inhalable aerosol
- 4) Respirable aerosol

\* The UK Advisory Committee on Toxic Substances has expressed concern that, for the OELs shown in parentheses, health may not be adequately protected because of doubts that the limit was not soundly-based. These OELs were included in the published UK 2002 list and its 2003 supplement, but are omitted from the published 2005 list.

- 8.1.3 PNECs and DNELs
- 8.2 Exposure controls
- 8.2.1 Appropriate engineering controls
- 8.2.2 Individual protection measures, such as personal protective equipment (PPE)

Not established.

Not established.

Ensure adequate ventilation or use appropriate containment. Atmospheric levels should be controlled in compliance with the occupational exposure limit. Guarantee that the eye flushing systems and safety showers are located close to the working place.

General hygiene measures for the handling of chemicals are applicable. Avoid contact with skin, eyes or clothing. Do not breathe vapour. Wash hands before breaks and after work. Keep work clothes separately. Contaminated clothing should be thoroughly cleaned. Contaminated leather articles should be discarded (e.g. shoes). Do not eat, drink or smoke at the work place.

Wear protective eye glasses for protection against liquid splashes. Wear eye protection with side protection (EN166).

Hand protection: Wear impervious gloves (EN374). Gloves should be changed regularly to avoid permeation problems. The gloves type used must be chosen based on the work activity and duration as well as concentration/quantity of material being handled. Recommended: Neoprene.

Body protection: Wear impervious protective clothing, including boots, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

In case of inadequate ventilation wear respiratory protection. Open system(s): Wear suitable respiratory protective equipment.

Eye/ face protection

Respiratory protection

| 9.1 | Information on basic physical and chemical properties |   |
|-----|---|---|
|     | Appearance  | Aluminium Coloured liquid                       |
|     | Odour   | Faint Odour                                     |
|     | Odour threshold                                       | Not available.                                  |
|     | рН  | Not established.                                |
|     | Melting point/freezing point                          | -16 °C (CAS# 25068-38-6)                        |
|     | Initial boiling point and boiling range               | ~320°C (CAS# 25068-38-6)                        |
|     | Flash point   | 199°C [Closed cup]                              |
|     | Evaporation rate                                      | Not available.                                  |
|     | Flammability (solid, gas)                             | Not applicable - Liquid.                        |
|     | Upper/lower flammability or explosive limits          | Not applicable.                                 |
|     | Vapour pressure                                       | <1 mm Hg  |
|     | Vapour density  | >1 (Air = 1)                                    |
|     | Relative density                                      | 1.13 (H2O = 1)                                  |
|     | Solubility(ies)                                       | Insoluble in water.                             |
|     | Partition coefficient: n-octanol/water                | ≥ 2.64 ≤ 3.78 log Pow (25 °C) (CAS# 25068-38-6) |
|     | Auto-ignition temperature                             | Not applicable.                                 |
|     | Decomposition Temperature                             | >350°C (CAS# 25068-38-6)                        |
|     | Viscosity   | Not available.                                  |
|     | Explosive properties                                  | Not explosive.                                  |
|     | Oxidising properties                                  | Not oxidising.                                  |
|     |   |   |

#### 9.2 Other information

10.

| 10.1 | Reactivity                         | Stable under normal conditions.  |
|------|------------------------------------|--|
| 10.2 | Chemical stability                 | Stable under normal conditions.  |
| 10.3 | Possibility of hazardous reactions | Keep away from: Acids, strong bases, Amines and mercaptans. The following<br>may occur: Hazardous Polymerization. Contact with aliphatic amines will cause<br>irreversible polymerization with considerable heat build-up. |
| 10.4 | Conditions to avoid                | Keep away from heat, sources of ignition and direct sunlight.  |
| 10.5 | Incompatible materials             | Keep away from: Acids, strong bases, Amines and mercaptans.  |
| 10.6 | Hazardous decomposition product(s) | May decompose in a fire giving off toxic fumes. Carbon monoxide, Carbon dioxide, Phenolics, Aluminium oxides and Aldehydes.  |

Volatile Organic Compound Content (%): 0

## 11. SECTION 11: TOXICOLOGICAL INFORMATION

SECTION 10: STABILITY AND REACTIVITY

| 11.1 | Information on toxicological effects (Substances in preparations / mixtures)<br>Acute toxicity |  |  |
|------|--|--|--|
|      | Ingestion  | Based upon the available data, the classification criteria are not met.<br>Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 2000 mg/kg<br>bw/day. |  |
|      | Inhalation   | Based upon the available data, the classification criteria are not met.<br>Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 20.0 mg/l.            |  |
|      | Skin Contact   |  |  |
|      |  | Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 2000 mg/kg<br>bw/day.  |  |
|      | Skin corrosion/irritation  | Skin Irrit. 2: Causes skin irritation.   |  |

Revision: 1.1 Date: 25.08.2015

## ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830

Serious eye damage/irritation Eye Irrit. 2: Causes serious eye irritation. Respiratory or skin sensitization Skin Sens. 1: May cause an allergic skin reaction. Germ cell mutagenicity Muta. 2: Suspected of causing genetic defects. Carc. 2: Suspected of causing cancer. **Reproductive toxicity** Based upon the available data, the classification criteria are not met. STOT - single exposure Based upon the available data, the classification criteria are not met. STOT - repeated exposure Based upon the available data, the classification criteria are not met. Aspiration hazard Based upon the available data, the classification criteria are not met. None.

#### 11.2 Other information

Carcinogenicity

#### SECTION 12: ECOLOGICAL INFORMATION 12.

12.1 Toxicity

- 12.2 Persistence and degradability
- 12.3 **Bioaccumulative potential**
- 12.4 Mobility in soil
- 12.5 **Results of PBT and vPvB assessment**
- 12.6 Other adverse effects

#### SECTION 13: DISPOSAL CONSIDERATIONS 13.

13.1 Waste treatment methods Dispose of this material and its container as hazardous waste (2008/98/EEC). Containers of this material may be hazardous when empty since they retain product residue.

13.2 **Additional Information**  Dispose of contents in accordance with local, state or national legislation.

The product is predicted to have low mobility in soil. (Insoluble in water.)

Aquatic Chronic 2: Toxic to aquatic life with long lasting effects.

Estimated Mixture LC50 > 1  $\leq$  10 mg/l (Fish) Part of the components are poorly biodegradable.

Not classified as PBT or vPvB.

None known.

The product has low potential for bioaccumulation.

#### 14. **SECTION 14: TRANSPORT INFORMATION**

|      |   | ADR/RID / IMDG / IATA  |
|------|---|--|
| 14.1 | UN number   | UN 3082  |
| 14.2 | UN proper shipping name                           | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S (Reaction<br>product: bisphenol-A-(epichlorhydrin) epoxy resin (number average molecular<br>weight ≤ 700) and Tert-butylphenyl 1-(2,3-epoxy)propyl ether) |
| 14.3 | Transport hazard class(es)                        | 9  |
| 14.4 | Packing group                                     | III  |
| 14.5 | Environmental hazards                             | Classified as a Marine Pollutant./ Environmentally hazardous substance   |
| 14.6 | Special precautions for user                      | See Section: 2   |
| 14.7 | Transport in bulk according to Annex II of MARPOL | Not applicable.  |
|      | 73/78 and the IBC Code                            | ••   |
| 14.8 | Additional Information                            | None.  |

#### 15. **SECTION 15: REGULATORY INFORMATION**

| 15.1   | Safety, health and environmental regulations/legislation specific for the substance or mixture |                       |
|--------|--|-----------------------|
| 15.1.1 | EU regulations   |                       |
|        | Authorisations and/or Restrictions On Use  | None.                 |
|        | Substance(s) of Very High Concern (SVHCs)  | None.                 |
| 15.1.2 | National regulations   |                       |
|        | Wassergefährdungsklasse (Germany)  | Water hazard class: 2 |
| 15.2   | Chemical Safety Assessment   | Not available.        |

#### **SECTION 16: OTHER INFORMATION** 16.

The following sections contain revisions or new statements: 1-16.

# ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2015/830

**References:** Existing Safety Data Sheet (SDS), Harmonised Classification(s) for Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin (number average molecular weight  $\leq$  700) (CAS# 25068-38-6), Aluminium powder (stabilised) (CAS# 7429-90-5) and N-Butyl Glycidyl Ether (CAS# 2426-08-6). Existing ECHA registration(s) for Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin (number average molecular weight  $\leq$  700) (CAS# 25068-38-6), P-Tertbutylphenyl Glycidyl Ether (CAS# 3101-60-8), Aluminium powder (stabilised) (CAS# 7429-90-5), Stearic acid (CAS# 57-11-4), Silicon (CAS# 7440-21-3) and Iron (CAS# 7439-89-6).

| Classification of the substance or mixture According to<br>Regulation (EC) No. 1272/2008 (CLP) | Classification Procedure |
|--|--------------------------|
| Skin Irrit. 2; H315  | Threshold Calculation    |
| Skin Sens. 1; H317   | Threshold Calculation    |
| Eye Irrit. 2; H19  | Threshold Calculation    |
| Muta. 2; H341  | Threshold Calculation    |
| Carc. 2; H351  | Threshold Calculation    |
| Aquatic Chronic 2; H411  | Summation Calculation    |

#### LEGEND

| LTEL | Long Term Exposure Limit                   |
|------|--|
| STEL | Short Term Exposure Limit                  |
| DNEL | Derived No Effect Level                    |
| PNEC | Predicted No Effect Concentration          |
| PBT  | PBT: Persistent, Bioaccumulative and Toxic |
| vPvB | very Persistent and very Bioaccumulative   |

Training advice: Consideration should be given to the work procedures involved and the potential extent of exposure as they may determine whether a higher level of protection is required.
